The chart displays two data series over time from December 2019 to December 2021. The blue line represents the percentage of respondents who believe the world is heading in the right direction, while the dark blue line represents those who believe it is heading in the wrong direction. A horizontal red dotted line is drawn at the 100% mark. The blue line starts at approximately 85% in Dec-19, dips to around 75% in Mar-20, and then fluctuates between 75% and 85% until late 2020. It then rises steadily, crossing the 100% line in late 2020, and reaches approximately 145% by Dec-21. The dark blue line starts at approximately 65% in Dec-19, dips to around 50% in Mar-20, and then falls to a low of about 10% in late 2020. It then rises sharply, crossing the 100% line in late 2020, and reaches approximately 155% by Dec-21.
